Description: In March 2014, the U.S. Consumer Product Safety Commission (CPSC or Commission) published a safety standard for soft infant and toddler carriers under section 104 of the Consumer Product Safety Improvement Act of 2008 (CPSIA). The standard incorporated by reference ASTM F2236-14, Standard Consumer Safety Specification for Soft Infant and Toddler Carriers, the voluntary standard for soft infant and toddler carriers that was in effect at the time. ASTM has now issued a revised standard, ASTM F2236-24. Consistent with the CPSIA, this direct final rule updates the mandatory standard to incorporate by reference ASTM's 2024 version of the voluntary standard.

The rule is effective on 22 February 2025, unless CPSC receives a significant adverse comment by 20 December 2024. If CPSC receives such a comment, it will publish a document in the Federal Register, withdrawing this direct final rule before its effective date. The incorporation by reference
